Vehicle Charging Solutions Australia Pty Ltd (VCSA) has compiled this data from a variety of sources, with the goal of assisting Australian drivers without offstreet parking to work out how to meet their charging needs.

VCSA does not assert copyright over this document, but also takes no responsibility for errors or omissions contained within it.

If you are aware of a mistake in this document, please let us know and we'll fix it.

If you are buying a vehicle, and the position of the charging port matters to you, please confirm this detail with the seller, rather than relying solely on this document!
